Permission for use of Photographs on the Internet

From time to time teachers may wish to publish class and school activities on the School's On-line Intranet or on our School Web Page. This may include photographs. Parents will then be able to share in their child's school activities through the Internet from home. Sports Day, excursions, special events or published work are examples of possible web publications.

The On-line Intranet requires a username and password. No personal information about children will be given. It is very similar to a photograph being published in a newsletter. First names only will be used. On the School Web Page, which does not require a password, no names will be given.

- I give permission for my child's photograph to be published on the On-line Intranet (password required) **OR**
- I do not wish my child's photograph to be published on the On-line Intranet
- I give permission for my child's photograph on the Internet. (no names are given) **OR**
- I do not want my child's photograph published on the internet
